

Uploading on Photobucket

1. Click on the upload icon. Then you'll get this screen. You can drag and drop pictures or browse in your documents on your computer. You also can upload from Facebook.

2. To upload from your documents, press on the browse files button. Your files will pop up. Pick the picture you would like to upload.

Your picture will pop up like this and then press the upload button.

Once you upload the picture, you can go to your library, upload more pictures or add a title for your picture.
